

Premium Iranian Building Materials for Global Markets

Daya International Trading Company

Connecting quality Iranian building materials with international markets

About Daya International Trading

Founded in 2020, **Daya Tejarat Ayandeh** (Registration No. 23478, Economic Code 14012641617) is a specialized export company headquartered in **Yazd**, the industrial heart of Iran's building material industry.

We bridge the gap between global buyers seeking premium construction materials and top-tier Iranian manufacturers with unused production capacity.

Our Export Portfolio

- Luxury porcelain tiles (large-format slabs)
- Natural building stones (marble, travertine, onyx)
- White and colored cement
- Custom materials (mosaic tiles, decorative bricks)

Core Products

1

Porcelain & Ceramic Tiles

- Large-format slabs (up to 120x240 cm)
- CE-certified, <0.05% water absorption
- European-standard finishes: polished, matte, textured
- Italian technology, custom design options

2

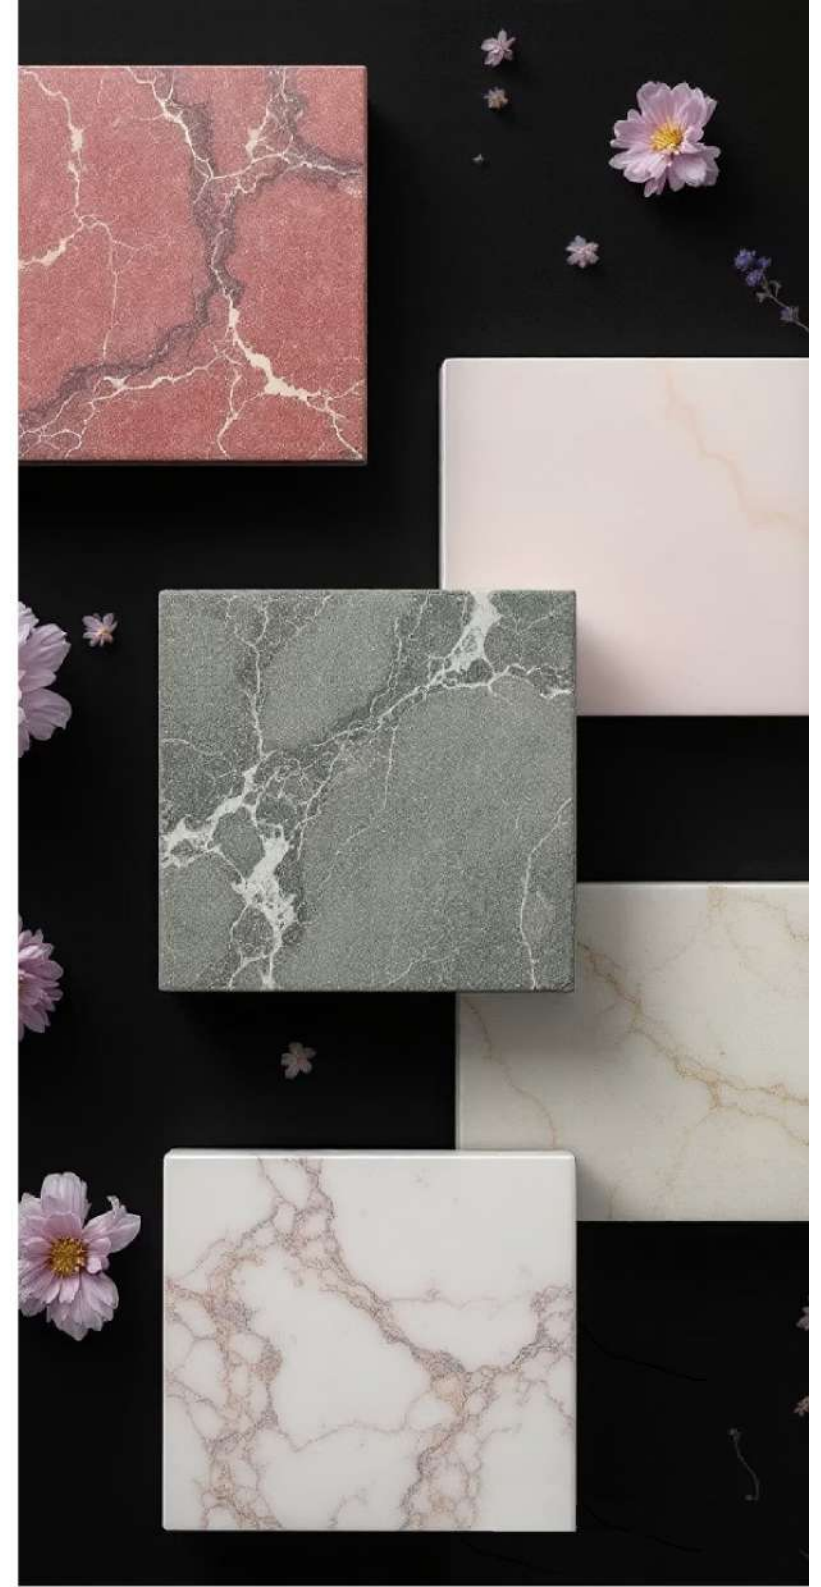

Luxury Natural Stone

- Marble, travertine, onyx, granite
- Rare colors: Persian Red, Green Onyx, Crystal White
- Slabs & cut-to-size options for high-end projects
- Decorative and architectural stone elements

3

White & Colored Cement

- 87%+ whiteness index, decorative-grade
- Export-grade packaging
- Color formulations for climate-specific applications
- Custom sourcing options available upon request

Why Choose Daya?

We go **beyond basic trading** — offering full-service, export-ready solutions tailored to international buyers.

European-Grade Quality

All products CE-certified, with ISO-compliant quality control systems ensuring consistent standards

Fair & Transparent Pricing

No hidden fees or surprise costs; honest quotations that respect your budget constraints

Flexible Supply & Packaging

Custom crates, mixed containers, and small minimum order quantities available to suit your project needs

Real-Time Communication

Quick, multilingual support via WhatsApp and email throughout the entire purchasing process

Sanctions-Resilient & Compliant Operations

Top Concerns When Sourcing from Iran

1 Secure Payments

Can I legally and safely make payments?

2 Timely Delivery

Will the goods reach me without delay?

3 Customs Clearance

Will customs stop my shipment?

4 Transparent Process

Is this export process safe and transparent?

Legal Payment Channels

Fully transparent, sanctions-compliant financial pathways with consultation on available options before purchase

Secure Logistics

Real-time shipment tracking with route optimization via land, sea, or multimodal transport and proper HS code classification

Global Standards

CE certification for all applicable products with full English-language data sheets and market-specific compliance

Our Business Model: Factory-Free, Fully Flexible

Instead of owning factories, we implement a "**factory-free production model**" that delivers maximum value and flexibility for our international clients.

Leverage Underused Capacity

We access Iran's best factories during their available production windows

Handpick Manufacturers

We select the optimal producer based on your specific project requirements

Oversee Quality

We manage quality control, export readiness, and packaging standards

Benefits of Our Approach:

- Competitive prices with minimal overhead costs
- Access to wide product range and rare materials
- Agility to adjust to international market demands

Global Export Markets

Active Markets

- Armenia 🇦🇲
- Russia 🇷🇺
- UAE 🇦🇪
- Oman 🇴🇲

Target Expansion

- Germany 🇩🇪 & Poland 🇵🇱
- Belgium 🇧🇪 & Georgia 🇯🇪
- Australia 🇦🇺
- GCC countries (Saudi Arabia, Qatar, Bahrain)

Value-Added Services

Daya offers comprehensive support throughout your procurement journey:

Material Consultation

Free expert advice to help you select the optimal materials for your specific project requirements

Custom Packaging

Specialized protection for fragile items like stone slabs, ensuring safe arrival at your destination

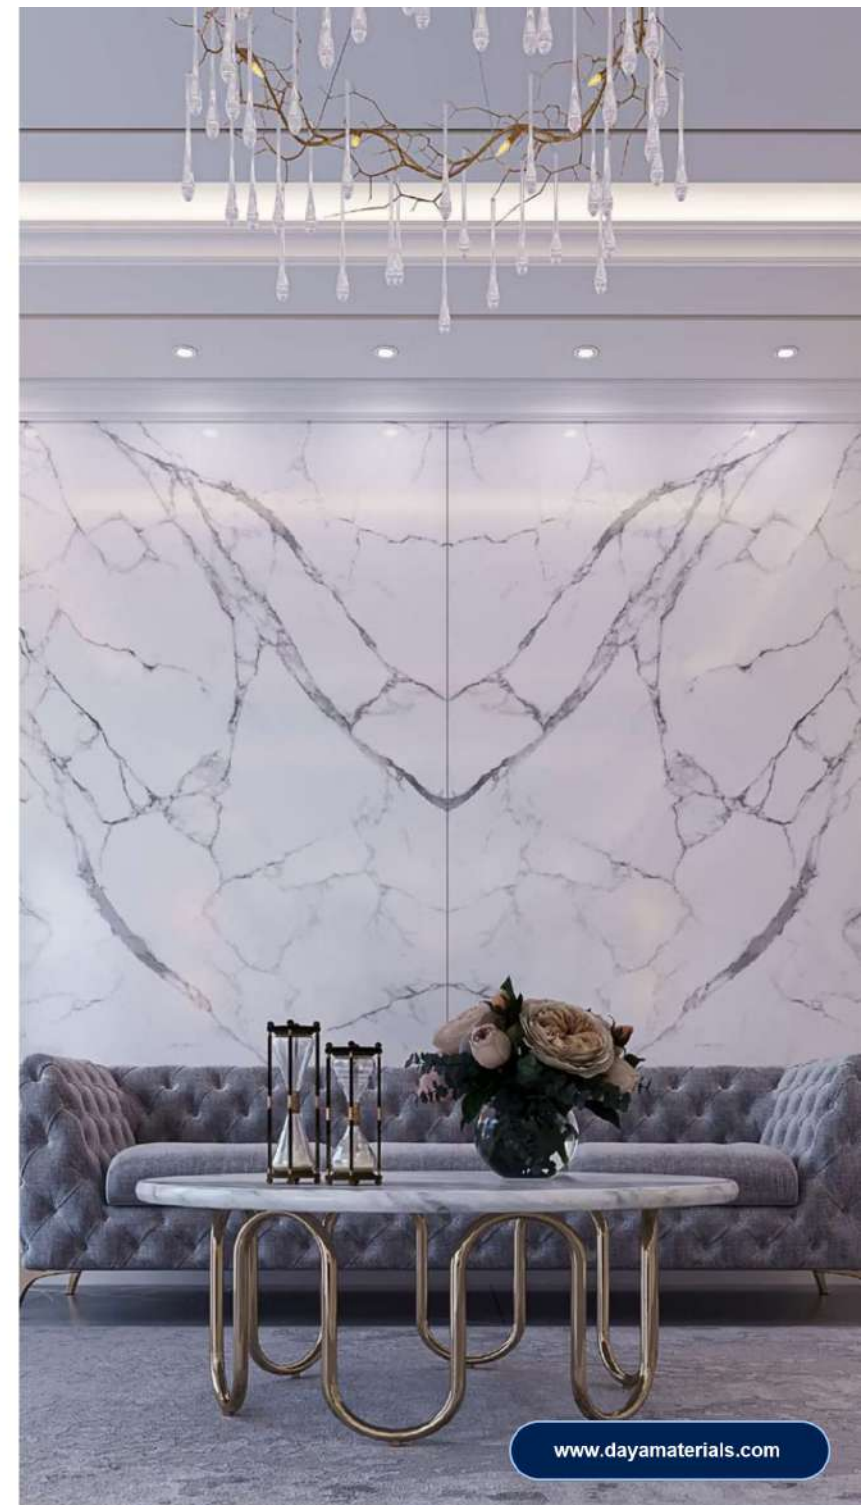

Multi-Route Logistics

Detailed analysis of transportation options to optimize delivery time, cost, and security

Secure Financial Solutions

Guidance on compliant payment channels that work efficiently despite sanctions

Leadership & Strategic Location

Why Yazd? Iran's Construction Capital

95%

of Iran's Building Materials

Come from Yazd region

120+

Active Manufacturers

In tiles, stones, and cement

Daya's strategic presence in Yazd gives you **direct access to the source** — with unmatched quality, speed, and cost savings.
